

Staff Report of the
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

**AGRICULTURAL DRAINAGE CONTRIBUTION
TO WATER QUALITY IN THE
GRASSLAND WATERSHED OF
WESTERN MERCED COUNTY, CALIFORNIA:
OCTOBER 1995 - SEPTEMBER 1997**

(WATER YEARS 1996 AND 1997)

DECEMBER 1998

Staff Report of the
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

**AGRICULTURAL DRAINAGE CONTRIBUTION
TO WATER QUALITY IN THE
GRASSLAND WATERSHED OF
WESTERN MERCED COUNTY, CALIFORNIA:
OCTOBER 1995 - SEPTEMBER 1997**

(WATER YEARS 1996 AND 1997)

DECEMBER 1998

REPORT PREPARED BY:
Jeanne Chilcott, Associate Land and Water Use Analyst
Les Grober, Associate Engineering Geologist
Jan Eppinger, Student Intern
Armando Ramirez, Student Intern

Many thanks to the staff and students of the Agricultural Unit without whose efforts during field sampling, quality control, and data processing, this report would not have been possible.

TABLE OF CONTENTS

	<u>Page</u>
Executive Summary	1
Introduction	5
Study Area.....	5
Sampling Program.....	7
Sample Collection Methods	7
Grab Samples	7
Composite Samples	10
Quality Control and Quality Assurance	10
Standard.....	10
Special Studies	11
Complete Mixing at Mud Slough (north) Downstream of the San Luis Drain.....	11
Field versus Laboratory Preservation.....	11
Field versus Laboratory Filtration.....	14
Rainfall and Discharge Patterns	14
Results	16
Water Year 1996	16
Inflow Monitoring Stations	16
Internal Flow Monitoring Stations	21
Outflow Monitoring Stations.....	21
Composite Samples.....	21
Water Year 1997	24
San Luis Drain and Mud Slough (north).....	24
Wetland Water Supply Channels and Salt Slough	27
Daily Composite Samples	33
Discussion	33
Comparison of Water Year 1996 with Water Year 1997.....	33
Comparison to Applicable Water Quality Objectives.....	38
Loads of Salt, Boron and Selenium.....	45
References	55

APPENDICES

APPENDIX A: Water Quality Data for Grab Samples: Water Year 1996.....	57
APPENDIX B: Water Quality Data for Grab Samples: Water Year 1997	79
APPENDIX C: Water Quality Data from Sigma Autosamplers: Water Years 1996 and 1997	97
APPENDIX D: Impact of January 1997 Flood Flows Diverted Around the Grassland Bypass and into Camp 13 Ditch and the Agatha Canal.....	115

LIST OF TABLES

	<u>PAGE</u>
1. Water Quality Monitoring Sites in the Grassland Watershed for Water Year 1996	8
2. Water Quality Monitoring Sites in the Grassland Watershed for Water Year 1997	8
3. Water Year 1996 Grasslands Watershed Monitoring Sites, Sampling Frequencies, and Parameters Measured	9
4. Water Year 1997 Monitoring Sites, Sampling Frequencies, and Parameters Measured: Grasslands Bypass Project	9
5. Quality Assurance Tolerance Guidelines Used in the Regional Water Quality Control Board Agricultural Drainage Monitoring Program	12
6. Assessment of Cross-Channel Mixing at Mud Slough (north) Downstream of the San Luis Drain	12
7. Study: Lab vs Field Preservation Paired Sampling at the San Luis Drain	13
8. Study: Lab vs Field Preservation Paired Sampling at the San Joaquin River, Crows Landing	13
9. Study: Field vs Lab Filtering	13
10. Median Constituent Concentrations for Waterways within the Grassland Watershed: Water Year 1996	17
11. Median Constituent Concentrations for Waterways within the Grassland Watershed: Water Year 1997	17
12. Annual Minimum, Mean, and Maximum Electrical Conductivity, Boron, and Selenium at Monitoring Sites Within the Grassland Watershed: Water Years 86-95, 96 and 97	18
13. Total vs Dissolved Selenium Concentrations at the Inflow to and Discharge from the San Luis Drain	28
14. Summarized Total Suspended Sediment Data for the Inflow to and Discharge from the San Luis Drain: Water Year 1997	29
15. Selenium Concentrations in Supply Water to the Grassland Watershed: October 1996 through September 1997	32
16. Boron, Selenium and Molybdenum Water Quality Objectives for Water Bodies Within the Grassland Watershed: Water Years 1996 and 1997	42
17. Boron Water Quality Objective Exceedances in the Grassland Watershed: Water Years 1996 and 1997	43
18. Selenium Water Quality Objective Exceedances in the Grassland Watershed: Water Years 1996 and 1997	43
19. Monthly Molybdenum Concentrations and Water Quality Objective Exceedances in the Grassland Watershed: Water Years 1996 and 1997	43
20. Monthly and Annual Discharge and Salt, Boron and Selenium Loads and Flow Weighted Concentrations for the Drainage Project Area: Water Years 1996 and 1997	47
21. Monthly and Annual Discharge and Salt, Boron and Selenium Loads and Flow Weighted Concentrations for the Grassland Watershed: Water Years 1996 and 1997	48

LIST OF FIGURES

	<u>PAGE</u>
1. The Grassland Watershed Within the Lower San Joaquin River Basin	6
2. Flows in Mud Slough (north) and Salt Slough as Compared to Rainfall at Friant Dam: Water Years 1996 and 1997	15
3. Electrical Conductivity, Boron and Selenium Concentrations in Panoche and Firebaugh Drains (Autosampler Data): Water Year 1996	22
4. Electrical Conductivity, Boron and Selenium Concentrations in Mud Slough (north) and Salt Slough (Autosampler Data): Water Year 1996	23
5. Electrical Conductivity, Boron and Selenium Concentrations in the Inflow to and Discharge from the San Luis Drain (Grab Data): Water Year 1997	25
6. Electrical Conductivity, Boron and Selenium Concentrations in Mud Slough (north) Upstream and Downstream of the Discharge from the San Luis Drain (Grab Data): Water Year 1997	26

Figures continued:

PAGE

7. Total Suspended Sediment Concentrations in the Inflow to and Discharge from the San Luis Drain: Water Year 1997	29
8. Electrical Conductivity, Boron and Selenium Concentrations in Camp 13 Slough and Agatha Canal (Grab Data): Water Year 1997.....	30
9. Electrical Conductivity, Boron and Selenium Concentrations in the San Luis Canal and Santa Fe Canal (Grab Data): Water Year 1997.....	31
10. Corroboration of Grab Sample Data by Use of Automated Collection (Sigma) Sampler at Camp 13 Slough: Water Year 1997.....	34
11. Selenium Concentrations in Almond Drive and Rice Drains: May 1985 to November 1996	35
12. Electrical Conductivity, Boron, and Selenium Concentrations in Salt Slough (Grab Data): Water Year 1997	36
13. Comparison of Electrical Conductivity, Boron and Selenium in the San Luis Drain Using Grab Sample Data and Autosampler (Sigma) Data: Water Year 1997.....	37
14. Comparison of Electrical Conductivity, Boron and Selenium in Salt Slough at Lander Avenue and Mud Slough (North) downstream of the San Luis Drain: Water Years 1996 and 1997	39
15. Comparison of Electrical Conductivity, Boron, and Selenium in Agatha Canal and Camp 13 Slough: Water Years 1996 and 1997.....	40
16. Comparison of Electrical Conductivity, Boron and Selenium in the San Luis Canal and Santa Fe Canal at Henry Miller Road: Water Years 1996 and 1997.....	41
17. Monthly Salt Loads Discharged from the Drainage Project Area and the Grassland Watershed, Water Years 1996 and 1997	49
18. Monthly Boron Loads Discharged from the Drainage Project Area and the Grassland Watershed, Water Years 1996 and 1997	50
19. Monthly Selenium Loads Discharged from the Drainage Project Area and the Grassland Watershed, Water Years 1996 and 1997	51
20. Annual Discharge from the Drainage Project Area and the Grassland Watershed, Water Years 1986 through 1997.....	52
21. Annual Salt Load from the Drainage Project Area and the Grassland Watershed, Water Years 1986 through 1997.....	52
22. Annual Boron Load from the Drainage Project Area and the Grassland Watershed, Water Years 1986 through 1997.....	53
23. Annual Selenium Load from the Drainage Project Area and the Grassland Watershed, Water Years 1986 through 1997.....	53
